BEFORE THE  
PUBLIC SERVICE COMMISSION OF WISCONSIN

Complaint of Wisconsin Power and Light Company Against  
Oakdale Electric Cooperative for Making a New Primary  
Extension of More Than 500 feet to Serve Premises Annexed  
to the City of Mauston, Juneau County, When Service Is  
Available From the Facilities of Wisconsin Power and Light  
Company Through a Secondary Extension

4320-DR-101

**NOTICE OF PROCEEDING  
AND  
ASSESSMENT OF COSTS**

**Supplemental Stipulation To Facts:      Friday, July 21, 2000 – Noon.**

**Comments By Parties:                      Friday, August 4, 2000 – Noon**

**THIS IS A PROCEEDING, to issue a declaratory ruling, under Wis. Stat. § 227.41, on the August 4, 1999, petition of Wisconsin Power & Light (WP&L) vs. Oakdale Electric Cooperative.**

The petition asks the Commission to:

1. Order Oakdale Electric to cease and desist from all attempts to provide electric service to the Brewer Creek Secure Treatment Center in Mauston, WI; and
2. Order Oakdale to remove any facilities it has constructed in the treatment site area; and
3. Order that WP&L be permitted by the State Department of Administration to provide permanent electric service to the Brewer Creek Secure Treatment Center; and
4. Issue a Declaratory Ruling that the measurement required by Wis. Stat. §196.495 is the “airline distance between an existing local service distribution line that normally operates at less than 35 kilovolts and the nearest point on the **principal building or facility** to be served” (emphasis added), and not the proposed service entrance to the principal building or

facility, or a power house or other structure in the vicinity of the principal building or facility to be served.

As part of the Stipulated Facts, the Parties should stipulate as to whether and when Oakdale Electric Cooperative, the city of Mauston, or WP&L through a franchise agreement with the city of Mauston or otherwise provided distribution service to the state of Wisconsin or on the site of the farm originally owned by Alvin and Irene Walters subsequent to the sale of the farm to the state of Wisconsin. Please describe the location of the service provided.

The stipulation should also be supplemented with facts concerning the presence or absence of distribution facilities owned by Oakdale Electric Cooperative or WP&L in any part of the area annexed by the city of Mauston in 1995 prior to the annexation of that area.

The Parties may submit comments on the petition described above and the facts stipulated to by WP&L and Oakdale Electric Cooperative.

This is a Type III action under Wis. Admin. Code § PSC 4.10(3). Since no unusual circumstances have come to the attention of the Commission, which indicate that significant environmental consequences are likely, neither an environmental impact statement under Wis. Stat. § 1.11 nor an environmental assessment is required.

The Commission does not discriminate on the basis of disability in the provision of programs, services, or employment. Any person with a disability who needs accommodations to participate in this proceeding or who needs to obtain this document in a different format should contact the case coordinator listed below.

Questions regarding this matter may be directed to case coordinator Nancy McGee at (608) 266-7706.
